

Heritage related volumes published by The AusIMM

The AusIMM has produced publications since it began in 1893. The Series of Transactions and/or Proceedings commenced in its first year and subsequently a number of other Series of Publications have been introduced.

Listed below are a number of specific volumes published by the AusIMM which include significant information on heritage aspects of the mining and minerals industry. Additionally, the major publications associated with the Fifth Empire Mining and Metallurgical Congress, 1953 and the Eighth Commonwealth Mining and Metallurgical Congress, 1965, as well as a number of Monographs, Conference Proceedings and various other volumes also contain information which is of a heritage nature.
