

WIMnet NSW Mentoring Program 2018

Are you looking for career guidance and direction?

Would you like to develop goals with someone who has been where you are now?

Are you interested in forging an exceptional, lasting relationship with a mentor?

Following the success of the previous three intakes, the WIMnet NSW Mentoring Program is back in 2018!

The program follows a structured, sustainable mentoring process that includes a comprehensive matching framework conducted by a Registered Psychologist. Successful applicants will be provided with comprehensive training, invitations to 3 program networking events, access to industry representatives and the opportunity to learn and receive career guidance from a mentor that is fully invested in their career and development.

Only 30 mentee places are available, and those selected will be expertly matched with a female or male leader from the resources industry. Mentees from all areas of the resources sector in NSW are welcome to apply.

The WIMnet NSW Mentoring Program will run from May to October 2018. Mentee application forms will be available for download from the AusIMM website on 27th November 2017.

Mandatory training and a launch networking event will be held in May 2018 in Sydney for all successful applicants. Mentees are encouraged to conduct 5-7 sessions with their mentor throughout the program. Cost is \$1,000 (+GST) per person.

If you're looking for a mentor that lives and breathes the industry like you do, look no further than WIMnet NSW's Mentoring Program.
