

The AusIMM International Uranium Conference 2009

10 – 11 June, Darwin, Australia

The Conference

As the demand for uranium and new sources of clean and greenhouse friendly energy increases, the next International Uranium Conference will continue to build upon The AusIMM's hugely successful series that have been held over the past three years.

The AusIMM International Uranium Conference for 2009 will include a two day technical program, an Investors Day, Open Day, workshops and technical tours to Northern Territory sites.

For a taste of what this conference offers please log onto <http://www.ausimm.com.au/Content/default.aspx?ID=293> to view the Podcasts from the 2008 event.

Workshops

Calling for workshop proposals. The Organising Committee invites proposals for the workshop program, to be held 8-9 June or 12-13 June 2009, immediately prior and post the technical conference. Workshops will provide an informal setting where participants will have the opportunity to discuss technical topics in an atmosphere that fosters the active exchange of ideas. Members from all segments of the uranium community are invited to submit workshop proposals for review by the organising committee. Please submit your proposal or express your interest in hosting a workshop to alisonm@ausimm.com.au
